

AN ENDOWMENT FOR SUSTAINABILITY

This third third floor workroom was constructed in 1895 when Susan B. was president of the National American Woman Suffrage Association. The space allowed 17 Madison Street to become the group's official headquarters.

Goal: \$5 Million. Raise a permanent fund (endowment) to serve as a cornerstone of long-term financial sustainability.

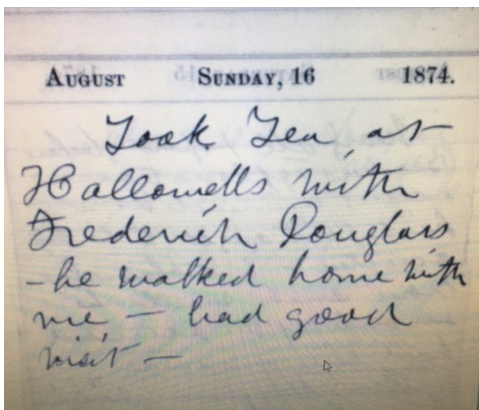

The first priority of this fund will be to generate a perpetual stream of income for the ongoing restoration, monitoring, maintenance, and conservation of the National Susan B. Anthony Museum & House's historic properties and permanent museum collection. This will prevent the pattern of restore/neglect that so often afflicts historic house museums.

Susan B. Anthony's inkwell

"Vote!" said the lady with the alligator purse," from a children's rhyme inspired by Susan B. and her iconic bag.
